<b>PROPOSED COOPERATION (Describe in few words):</b>	

The ZELT department, located in Toulouse, belongs to the technical unit of the French ministry of transport located in Bordeaux, the South West Centre of technical studies (Centre d'Etudes Techniques de l'Equipement :CETE SO).

The main missions of the CETE are :

- to participate in the development and dissemination of technical methodologies and concepts,
- to provide technical support to the other departments of the ministry,
- to do studies and provide expertises to different kind of public or private organizations,
- to contribute to technical experiments, testing, and verifications, especially by data analysis,
- to contribute to operational research.

The ZELT department, specialized in the evaluation of transport system or mode, has a

national status of resource team inside the French ministry of transport and therefore is authorized to intervene everywhere in France and in Europe.
