COOPERATION WITH THE FRENCH EMBASSY ORGANISE
DEMO-DAYS OF SPACE APPLICATIONS**

“SATCOMS AND NAVIGATION AT THE SERVICE OF THE CITIZEN”

29-30 January 2008

COOPERATION PROPOSAL FORM

The key aspect of the event will be to serve as ‘practical first step’ in the initiation of cooperation between French and Greek Companies and Users.

The event is expected to be a **‘partner and expertise shopping’** exercise, where industry and users will seek partners with adequate skills for e.g. the development, the testing, the qualification, or the commercialisation of an application, or even the participation in the response to an ITT of e.g. ESA or EC.

Taking into account ongoing calls for proposals and ITT’s by EC, ESA and National authorities, and in order to prepare and facilitate the contacts, the interested participants in the **‘partner and expertise shopping’** forum are expected to fill in the **‘Cooperation Request Form’** attached below.

The form will include information on the expected type of cooperation, in view of a specific project, or a response to a call for tender etc.

It is important to indicate in the form the type of partner and expertise sought, e.g. a user, a subcontractor, a prime, local management or manpower support, expertise in hardware installation or operation, software expertise, etc.

Ideally, a Work Package form, as in the example attached herewith, should be filled-in, listing in summary the tasks to be undertaken by the partner.

The completed ‘Cooperation Request Forms’, and the corresponding Work Packages if applicable, will be printed together with the participants list and will be distributed during the first day of the workshop.

Please fill-in the attached ‘Cooperation Request Form’, and the corresponding Work Packages if applicable, and send it electronically to the organisers at (provide e-mail here) before the 18th January 2008.
