PROPOSED COOPERATION (Describe in few words):	
	Roll out of Location Based Solutions
	Thales Alenia Space is a leader actor in the Location Based Services market. We Develop and commercialize, in synergies with the Thales group, Innovative E2E Satellite Localization solutions and products, relying on TAS competences and know-how (Egnos/Galileo) and promoting TAS infrastructure business. We are looking for partners to help us developing and deploying solution for vertical markets (airport, civil security forces, utilities companies, hospital).
REQUESTED PARTNER (Describe Partners Characteristics):	
	Telecommunication Operator
	Civil Protection Authorities
	Application Developer
