PROPOSED COOPERATION (Describe in few words):	
<p>In the framework of MOWGLY (6 th PCRD) a trial has demonstrated that TAS DVB S2 DVB RCS access products are relevant for offering a part of an efficient communication chain for broadband services delivery on board train . The TAS /HELLASAT proposed cooperation intend to demonstrate that the same communication chain completed with Femto Base Station Router will ease the 3G services deployment within train .</p>	
PARTNERS
