

**THE MINISTRY OF TRANSPORT AND COMMUNICATIONS IN  
COOPERATION WITH THE FRENCH EMBASSY ORGANISE  
DEMO-DAYS OF SPACE APPLICATIONS**

**“SATCOMS AND NAVIGATION AT THE SERVICE OF THE CITIZEN”**

**29-30 January 2008**

## **COOPERATION PROPOSAL FORM**

**The key aspect of the event will be to serve as ‘practical first step’ in the initiation of cooperation between French and Greek Companies and Users.**

The event is expected to be a **‘partner and expertise shopping’** exercise, where industry and users will seek partners with adequate skills for e.g. the development, the testing, the qualification, or the commercialisation of an application, or even the participation in the response to an ITT of e.g. ESA or EC.

Taking into account ongoing calls for proposals and ITT’s by EC, ESA and National authorities, and in order to prepare and facilitate the contacts, the interested participants in the **‘partner and expertise shopping’** forum are expected to fill in the **‘Cooperation Request Form’** attached below.

The form will include information on the expected type of cooperation, in view of a specific project, or a response to a call for tender etc.

It is important to indicate in the form the type of partner and expertise sought, e.g. a user, a subcontractor, a prime, local management or manpower support, expertise in hardware installation or operation, software expertise, etc.

Ideally, a Work Package form, as in the example attached herewith, should be filled-in, listing in summary the tasks to be undertaken by the partner.

The completed ‘Cooperation Request Forms’, and the corresponding Work Packages if applicable, will be printed together with the participants list and will be distributed during the first day of the workshop.

**Please fill-in the attached ‘Cooperation Request Form’, and the corresponding Work Packages if applicable, and send it electronically to the organisers at [satforum08@republic-coms.gr](mailto:satforum08@republic-coms.gr) before the 23th January 2008.**

Industry

Government

<b>INTEREST IN:</b>				
<b>Program</b>	<b>Subject/ Title (SPACE, SECURITY, GALILEO)</b>	<b>Call reference</b>	<b>Deadline for proposal</b>	<b>Type of Partner needed (please underline as applicable)</b>
<b>Proposal PF-7</b>				User Expert Prime Subcontractor
<b>Proposal ESA [1]</b>				User Expert Prime Subcontractor
<b>National Call [2]</b>				User Expert Prime Subcontractor
<b>Other type of Cooperation [3]</b>				User <u>Expert</u> <u>Prime</u> <u>Subcontractor</u>

[1] Please indicate for which program (eg. ARTES 1, 3, 4) and indicate EMITS reference as applicable.

[2] Please indicate interest for a specific national call in GR or FR e.g. in the area of Transport, Telecoms, Defense etc.

[3] Please define type and provide details: it may be in the frame of other, existing cooperation schemes, PPP, etc.

**PROPOSED COOPERATION (Describe in few words, as in the example below):**

*Implementation of a software quality assessment and monitoring project. DYNACOMP S.A. has developed a tool supported methodology for software product quality assurance based on the ISO/IEC-9126 software engineering quality standard.*

*Duration: 3 months system study and review/ 6 months assessment and monitoring/ 3 months evaluation of results*

**REQUESTED PARTNER (Describe Partners Characteristics, as in the examples below):**

*Software quality awareness*

*Need to establish software quality assessment processes in order to produce quality space software*

*Software contribution (provide software for evaluation with adequate manpower/support) and/or*

*Local management support*

**Ideally provide work package(s) description (see attached form)**

## WORK PACKAGE DESCRIPTION

**Project:** *Implementation of software quality assessment and monitoring project*

**No: 2** **WP Title:** Software product quality assessment and monitoring

**Start:**  $T_0 + 3$

**End:**  $T_0 + 9$

**Manager:** Yiannis Kanellopoulos

**Company:** DYNACOMP S.A.

### Objectives

*To gather and analyse the data concerning the identified problematic areas of the development (or maintenance) of a software product.*

### 1.2 TASK DESCRIPTION

- 1. Parse source code to extract metrics and elements describing software artifacts.*
- 2. Stakeholder interviews*
- 3. Develop a software quality model according to the partner's identified needs.*
- 4. Analyse the collected data*
- 5. Interpretation of the analysis to actionable recommendations*

### OUTPUTS

- 1. Report containing the findings of the performed analysis and actionable recommendations*
- 2. Presentation of findings and recommended actions*

## WORK PACKAGE DESCRIPTION

**Project:** *Implementation of software quality assessment and monitoring project*

**No: 3**                      **WP Title: Results Evaluation**

**Start:**  $T_0 + 9$

**End:**  $T_0 + 12$

**Manager: Yiannis Kanellopoulos**

**Company: DYNACOMP S.A.**

### Objectives

*To evaluate the findings and recommendations of the performed assessment*

### 1.3 TASK DESCRIPTION

- 1. Presentation of results to stakeholders*
- 2. Provision of feedback and iteration of the analysis if necessary*

### OUTPUTS

- 1. Final Assessment Report*
